

Kit Simmons (Technical Director) [they/them] is an actor-creator, art enabler, fight director and intimacy coordinator. They are Autistic/Neurodivergent and prioritize radically compassionate work practices, while their Queerness (in all senses of the word) compels them to work in non-traditional theatre forms and contexts. They are fascinated by the natural and the naturalistic, and messing around with both. Their training has ranged from classical voice work to ballet to clown to aerial - a DIY/use-whatever-you've-got approach is at the heart of all their projects and if it tells a good story, nothing is off the table. Recent project: Conversations Around the Table with Open Heart Arts and DISCOCAB for Hamilton Fringe's All-Access Series.
